### We went east...we went west....

Our Club decided to "see the USA in their Chevrolets" this summer. A large group headed west to Sioux Falls, Deadwood and Spearfish for the Black Hills Corvette Classic. Then 8 more cars decided to spend even more time together and tacked on an extension that included Yellowstone, Cody, Jackson Hole and Steamboat Springs. Meanwhile, more Club members headed east for the Tail of the Dragon run. One thing is for sure: wherever we went, we had fun!

## President's Column

First, I'd like to thank **Marty Dooley** and **Dave Horstmeyer** for organizing and leading many of us in a wonderful trip to the Black Hills and beyond. I think I can speak for all in saying we had a great time.

Now, back to business –

It's never too late to start thinking about the next crop of officers. First, I'm looking for a volunteer for the Nominating Committee Chairperson. Naturally, we'll also need committee members. To start, the **Hagenows** are in their second year in their positions, so by our bylaws, they cannot run for their current positions. That doesn't mean they can't run for other positions...

Reminder to all that the meeting location is Elco Chevrolet at 7pm on the 7<sup>th</sup>.

Keep in mind, no meal will be available. I also recommend bringing chairs.

See you all Tuesday.

## Upcoming Event Information

By Ron Hagenow

We have a lot of events on the horizon, and at least two of them require some advance planning. First, September 15 is Funfest at Mid America Designs in Effingham. The club has always had people go each year and I imagine this year will be no exception. Last year several members of the club, led by **Terry Wilson**, went over to Indiana for a covered bridge festival after Funfest. Terry has offered to head this up again if there is interest. If you want to go to Funfest, please let me know and I will start a signup sheet. If you would also like to do the covered bridge tour, let me know that as well. If there is enough interest we'll see if we can get that going.

September 15-16 also brings the Scott AFB Air Show. We have done this several times and it is always fun. This year the Thunderbirds demonstration team will be, and other aircraft both for static displays and flying exhibition. Looking Glass Corvette Club is heading up the event and they are asking for help. They only have about 12 cars for Saturday (they also have folks going to Funfest) and 22 for Sunday. Scott would like to have 50 cars each day. We are setting up by one of the hangers as in previous years. We must be at the Scott entrance early (7:30 am?), as we must be in before everything opens. We can't leave until about 5 pm. Again, if you are interested please let me know, including what day you are planning. Security is extremely tight, so I must have the following information for all members planning to attend: Names of driver and passenger, drivers license number(s), phone number(s), date you plan to display (Saturday or Sunday). Remember this is a military base so we operate by their rules. You can bring in soda and water but no alcohol (food and soda vendors are available) and they need the names of the people going by at least September 1. You may drop out after signing up, but don't just show up the day of the event and expect to get in. <http://www.scott.af.mil/Airshow2012.asp>

Think about what you might want to do and sign up at the August meeting for one or more of the events. If you aren't attending the meeting, please send me an email if you are interested in any of these events.

### **Old Business - None**

### **New Business**

By-laws vote - **Kevin Bayliss** reminded everyone of the proposed change to the by-laws as presented previously. **Ron Hagenow** read the current by-law as well as the proposed change, to wit...Article VIII, Section 2: Proceeds Of The "50/50" Program, currently states "Proceeds of the 50-50 program at the monthly meetings are to be deposited to General Revenue Account." The proposed revision to this Article is: "Proceeds from the "50/50" program are to be deposited in the Charitable Activities Account." In keeping with the by-laws, this proposed change was printed in the June newsletter, read at the June meeting, with a vote to be taken at the July meeting. Kevin called for discussion of the proposal but there were no comments. A hand vote was taken as paper ballots were not available. Members overwhelmingly voted in favor of leaving the by-laws unchanged.

Static Clings – **Ron Hagenow** has contacted a company in St. Louis re preparing thin plastic static clings for the cars. The clings would be 12"x18" and would feature the newly formatted club logo. The clings would attach to car doors and could be used in parades. They are removable and would not harm the car finish. Elco uses similar clings made by the same firm for their vehicles. Cost is \$18 per cling. Ron suggested that the club might want to purchase a few of these but that individual members could also order. **Charlie Miget** asked if samples could be provided before placing orders. Ron will follow up on this and will arrange to get a sample cling.

Members were reminded that the club logo has been re-formatted and is stored on the website. Check with Ron or **Mike Zlatic** for information on accessing the logo format.

# Charity Committee

By Judy Giovanoni, Elise Akins, and Michelle Finn

Thank you to everyone for the donations for the **Kathy J. Weinman Women's Shelter**. They were very appreciative, and said that their clothing inventory was really low, so the timing was great.

Our charity event for August will be for school supplies for **Board of Religious Organizations** ([brostl.org](http://brostl.org)). See the list for suggested purchases. Note: the Missouri tax-free weekend that includes school supplies is August 3-5; not all communities participate. Monetary donations of any amount are welcome for supplemental items. Please bring your items to the August 7 meeting.

**Meeting Minutes**  
**Continued from page 8**

Meeting Location – **Kevin Bayliss** told members that he had received a letter on the evening of the June 5 meeting from the banquet facility management. The letter stated that a room rental would be charged for \$500 per event and that it would be necessary to guarantee a purchase of 50 buffet meals per meeting at \$14 each. These changes would become effective in August. Because of the monthly cost and the inability to guarantee the minimum number of meals, the board agreed that a new meeting place would need to be found.

**Mark Gerecke** has offered to have the club meet at Elco's facility in Ballwin. He said that catered meals could be provided for about \$8 per person with an accurate count needed a few days prior to meeting time. There is a conference room in the back with a small kitchen. The dealership closes at 6 and the service department is completely closed after 7 or 7:30 p.m. Mark said some help might be needed in setting up tables and help would be needed with clean-up after the meeting. There should be adequate parking for club cars.

**Teresa Luebcke** proposed the idea of not serving food and possibly having an informational program after the meeting. Volunteers would still provide the monthly dessert.

Teresa moved to meet at Elco beginning on August 7 with dessert only. **Carl Cox** provided a second to the motion, which was approved by the membership. To recap – the August 7 meeting will be held at 7 p.m. at Elco Chevrolet, 15110 Manchester Road in Ballwin. Members should bring their own beverages but Mark reminded everyone that alcoholic beverages are not allowed on the premises. **Jeff Craig** suggested that for the first meeting, members might want to bring their folding camp chairs. Dessert will be served.

Please contact Kevin or other board members if you have a suggestion for a possible meeting facility.

Box Tops for Education – **Peggy Craig** thanked everyone who collected General Mills box tops last year. Peggy was able to use proceeds from the redeemed box tops to provide scholarships for her music students. Please continue to help again this year by collecting box tops from qualifying products.

50/50 Raffle  
Congratulations to **Marya Horstmeyer**, winner of \$68 in the raffle. Other items won by ticket holders were: **Mike Oster**-two Corvette tumblers, **Chris Woods**-bottle coozie, **Tom Marlo**- can coozie.

Dessert – Thanks to **Mike and Christina Oster** for providing this month's cake. **Bob and Chris Woods** have volunteered to bring the August cake and supplies.

A count of attendees was not available.

**Bob Woods** moved to adjourn the meeting with a second by **Michelle Paillou** and approval by the membership. The next regularly scheduled meeting will be held on Tuesday, August 7 at 7 p.m. at Elco.

Respectfully submitted,  
**Mary Ann Hagenow**  
Secretary 2012

# My Corvette Story

(Or how I came to be associated with crazy Corvette people!)

By Ron Hagenow

Like some in the club of a certain age, I grew up in the golden era of muscle cars. Coming from a small farming community it seemed everyone had a Mustang, Camaro, Trans Am, Cuda or GTO. My one brother had a 64 Impala SS, 71 Nova SS350 and a pristine 82 Corvette. My other brother had a Chevelle SS350 and a LS6 powered 71 Chevelle SS454. Me? Being the brightest of the family, I drove a pea green 67 Plymouth Fury and an orange Pinto. Go figure!

My goal was to someday own a Corvette. After a couple of moves and getting both kids out of college I could finally start looking around for my dream car. Having a certain dollar figure in mind I concentrated on getting a C3. This was in 2001 and we were living in Huntsville, AL at the time.

After spending weeks pouring through the classified section and looking at a lot of trashed C3s I was pretty discouraged. Then one day I saw an ad for a 1988 red coupe and it was only a couple of thousand more than the trashed C3s I was looking at. I checked it out and couldn't believe it was almost perfect with only 32K miles. I told the guy I wanted it, stopped at the credit union on the way home to get the money and THEN told Mary Ann. Luckily she knew how car crazy I was so it was OK. Did I mention that I had to build another garage to hold my new purchase?

Driving off the lot I rolled over 33K miles and I was anxious to experience this thing called a Corvette. I started doing research based on some of the papers that came with the car and learned that I was the fourth owner. It was sold new out of Herb Adcock Chevrolet in Chattanooga, TN. The original owners kept it 10 years and only put 15K miles on it. It definitely started out as a garage queen. Then a person in Huntsville put about 18K on it in 2 years, so it looks like it was a daily driver. The third owner had it for only a few months before trading it in on a truck. That's when I got it.

A few people at work said we needed to join a Corvette club to fully appreciate the Corvette experience, so we joined Valley Vettes in Huntsville, AL. They were a great bunch of people and we got to experience many cruises to the National Corvette Museum and on a lot of back roads in Tennessee and Alabama.

Moving back to St. Louis in 2005 I was looking for a club to join and found the St. Louis Corvette Club. Their first event was a car show and who do I see but Gary Murray, who I worked with prior to leaving St. Louis. We quickly joined and the rest is history. We've gotten to enjoy so many events with the club, from driving on the track for opening day at Indy, to going to the Museum for the Craig's delivery, and many parades and dinners. The club has definitely become our extended family. We especially appreciate all of the help we received when Mary Ann was sick.

As my car sits today it has a little over 56K miles in 24 years. I've put maybe 20K on it in 11 years. I have the reproduction build sheet (born on date is May 31, 1988) and window sticker (almost all options for \$35K) as well as the original protecto plate. I have all the paperwork since I've owned it and some prior to that. I also have many brochures and memorabilia that fill up most of a file cabinet drawer. It's maybe not as nice as the new Corvettes but it still gets compliments. And if it wasn't for this Corvette we wouldn't have met all of you!
